THE WELDING EXPERTS®

# EDUCATION + MORE

We have supported WorldSkills as an exclusive Global Partner in welding over the past decade and together with our involvement with many National Skills organizations we are inspired to replicate our achievements with these organizations world-wide. Through educational programs, we can inspire youth to take up welding as a vocation thus providing industry with much needed welders of the future! Trained to the highest standard involving safety, quality & productivity delivered via the latest technologies. Lincoln Electric has a value added approach with a long term focus by supporting schools with safety information, training aids, welding books, curriculum and the high tech products required to educate the skilled crafts employees required to meet the challenges of tomorrow, Today. Our Global Partnerships provide us with the opportunity to meet and interact with the leading training institutes providing us both with development and learning opportunities Together.
